Remarks:

Department of Zoology has felt the importance of this this course to keep track with ever increasing importance of programming in different fields of science. Thus Dr. Sinha was requested to deliver this eight day workshop to share his knowledge of Python programming language among all interested participants. Dr. Sinha explained the process in a very lucid way and answered many questions asked by the participants, making the workshop a great success. Dr. Debnarayan Roy, Principal/OIC announced the opening & close of the session. Shri Sanjib Kumar Das and Shri Sourav Barai, Assistant Professors, conducted the programme. Vote of thanks was given by Dr. Rahul Kumar Datta, Associate Professor & Head. The workshop was a great success as reflected from the feedbacks of participants.
